- Download haha TRAVEL App, then input mobile number and ICCID to login the account, you can purchase data package after login.

Q15. How to activate and choose activation day?

1. Day pass : You can use the purchased data package within 90 days, activation day selection is not necessary, when you arrived destination and turn on "Roaming data", one day pass will be deducted after connect the network.
2. Hong Kong/non day pass roaming package (e.g – 5 days/6 days/7 days/10 days/30 days) : The package will be activated immediately.  
Reminder : Day pass data is priority to use, if customer needs to buy day pass and non day pass package at the same time (same destination), please set "Inactive" on day pass first, then change "Active" from "Account" when non day pass is almost finished.  
Day deduction is started even though the data status is changed to "Inactive" , only data is stopped.

Q16. How is "A Day" defined for travel data package?

- Data calculation is based on 24 hours, and the 24 data pass (local/travel) will be valid for 24 hours after package subscription.

Q17. How many data is included in travel data package ?

- Unless specific stated, when data usage reached fair usage limited (varying from place to place), you can still enjoy the data services, and the data access speed will be restricted at 128kbps (varying from place to place). Travel data package supports data tethering function on mobile devices, it does not support peer-to-peer applications (P2P), FTP file sharing and webcam applications.

Q18. Can I make any voice call?

- haha SIM supports local voice call service in Hong Kong/roaming voice call service, charges will be directly deducted from your balance, please refer to haha TRAVEL APP "Local and Roaming Call Charges" or Fortress website : <https://www.fortress.com.hk/en/hahasim> about the details. To save roaming spending, you are recommended to use third-party app (such as Whatsapp) to make roaming voice call via mobile data while traveling.

Q19. I purchased local data/ travel data package and can enjoy roaming data, but why can't receive text messages and voice calls?

- Due to local and roaming voice calls, local/international or roaming text messages will be directly deducted from your balance subject to charges. If there is insufficient balance in the account, the related services cannot be used. You can use the haha TRAVEL App to log into my account to check your account balance and perform value-added services.

Q20. How to check my purchased data package?

- You can review all your purchased local data/ travel data records after login your haha SIM account via haha TRAVEL APP.

Q21. How to check recharge records, remaining balance of local voice minutes and other purchased data package?

- You can login your haha SIM mobile number & password via haha TRAVEL APP. Click "My Account Overview" to check all your records including remaining balance of your account, remaining usage of local data, remaining usage of travel data package, refill records or purchased local/ travel data package.

Q22. If you have encountered questions with record of purchased plan, payment, value-added or remaining usage of local data/travel data package?

In order to understand the situation, please provide the following information and email to [fortress@asw.com.hk](mailto:fortress@asw.com.hk)

- 1) haha SIM phone number
- 2) ICCID
- 3) Contact mobile number
- 4) Contact email address
- 5) System screenshots of payment records, purchases and value-added in haha TRAVEL App
- 6) Describe details

Q23. What can I do for the haha SIM loss & replacement?

- Customer is required to report the loss to the police first. The lost report form must show the customer's name and ID number, as well as the haha SIM phone number & provide an image or screenshot of the police report number to [fortress@asw.com.hk](mailto:fortress@asw.com.hk)

Q24. Why can't I receive any signal at the first time of using the SIM card?

Step 1. Upon arrived your destination, please ensure if the haha SIM has been properly plugged into SIM Slot 1 of your mobile device (If mobile device supports dual SIM function), set automatics for network selection and reboot your device.

Step 2. Travel data package setup should be completed within 3 minutes automatically, once it is completed, haha SIM will search for the designated network automatically, your mobile device should display the signal and the Carrier Name. You can use the internet service.

Step 3. haha SIM card will connect designated roaming network automatically. If you cannot access the internet, please check if the APN is correctly set. Changing Carrier & the name of APN setup in manual may be required in some mobile devices & destinations. If problem still exists, you can try to ON/OFF in-flight mode, it allows haha SIM to search the network again; or you could try to restart your mobile device once.

Step 4. Please ensure the above procedures are under non-WiFi situation to proceed

Step 5. If it still can't be solved, please connect to WiFi locally and log in to iChat within the haha Travel App contact 3 iChat ambassador for assistance.

Q25. When the Haha SIM card cannot be used or can't go online, have you checked the following conditions?

Step 1. Please ensure haha SIM is activated (Activation SMS and mobile number will be received after insert haha SIM into handset, please activate it on non-WiFi situation)

Step 2. Please ensure you have purchased the travel data package for your destination

Step 3. Please ensure "Mobile Data" & "Data Roaming" functions have turned on

Step 4. Please check if haha SIM has connected the designated roaming network automatically & the APN set correctly

Please set APN to "mobile.lte.three.com.hk"

For iOS : Setting -> Mobile Data -> Mobile Data Network -> APN

For Android : Setting->Mobile network->APN

Step 5. Please restart your mobile device, and try to ON/OFF in flight mode once. If the problem still exists, please kindly contact us for enquiry.

Step 6. If it still can't be solved, please connect to WiFi locally and log in to iChat within the haha Travel App contact 3 iChat ambassador for assistance

Q26. How to contact customer service support when no network in oversea?

- Please try to connect with local WiFi to login haha Travel app, then use iChat to contact 3 iChat ambassador for enquiry.

Q27. How to operate "Active"/ "Inactive" data setting?

- Customer can change "Active"/ "Inactive" status when purchases data package (Preset - "Active"), if no change, day pass will be activated when you arrived destination and non day pass will be activated immediately. In order to prevent both day pass and non day pass active on the same time, customer can select "Inactive" on day pass first, then update the status on "Account" when non day pass is almost finished.

Q28. What is the situation if purchase day pass and non day pass at the same time?

- If customer needs to purchase day pass and non day pass (same destination) at the same time, e.g. purchase 8 days Japan package (1 day pass + 7 days package), please select "Inactive" on day pass first, then change "Active" from "Account" when non day pass is almost finished.

Q29. Why is there "This call is made from a new prepaid SIM card" voice alert when others pick up my call?

- If you use a newly activated prepaid SIM to make a local call, according to The Office of the Communications Authority (OFCA), "This call is made from a new prepaid SIM card" voice alert will be played to call receivers before a call connection, to raise customers' awareness of suspicious calls. [Click here](#) for details on OFCA's website.
